Guts4Life IBD Symptom Checker

Dear Doctor,

Your patient has completed a Symptom Checker tool on the **Guts4Life** website. This tool has been designed to help people with lower abdominal pain or bowel problems. Your patient has been advised to contact their doctor about their symptoms.

Please find a summary of your patient's symptoms as they entered into the Guts4Life Symptom Checker. We hope this printout is of help to you in terms of opening dialogue with your patients.

Please tell us who you're enquiring for

My partner

What is your/their gender?

Female

What is your/their age?

34

Where is the pain at the moment?

Lower abdomen

At the moment, how would you describe the pain?

- Crampy

When did the pain begin?

It comes and goes in episodes (which last anything from a few days to weeks) and then disappears

Please select the symptoms from the list below.

- Other
 - Ulcers or boils by the anus
 - Fatigue
 - Weight loss
-

The Guts4Life website contains information for patients and their carers/parents around IBD diagnosis, management and lifestyle. It also offers information for employees and employers to help improve working conditions for people with IBD. For more information please go to: www.guts4life.com
